

## EDITH COWAN UNIVERSITY COUNCIL ENROLLED STUDENT REPRESENTATIVE (2)

2009 GENERAL ELECTION  
6 OCTOBER 2009

### QAISER, Ayaz

I'm an international student of 2<sup>nd</sup> semester, doing MBA at Mount Lawley Campus ECU. I want to contribute my abilities and services in the progress of the university. ECU has given me golden opportunity to learn advance studies in as well as outside Australia (Germany by attending summer school). Now it is my moral obligation to return something back to ECU.

If I'm elected, being the member of the University Council, I'll be in better position to assist administration in making and implementing such policies which will enhance performance measurement skills of the students and university itself.

Its all about my motives, that's why, I'm contesting the election of the University Council for the year 2009-2010. In case of further information about me, following is my contact details:

### CUCOW, Shane

I am passionate about students having a voice in their University's governance. Universities depend on their students, and often have no idea what students need and feel, or how to provide an engaging University life.

I have been a Student Representative at the Student Guild for 2 years, working to support and develop effective student representation and support networks, and to redevelop a campus life. I believe it's vital to have active, vocal and engaged student representatives on Council, and that they be involved with the Guild, which works daily to investigate student issues and advocate for students.

I am on Council now, and have successfully used my position to ensure students were adequately informed about remediation of dangerous sites, to get the University and the Vice Chancellor to work with students, and to get student life, engagement and support, as well as Sustainability, embedded in the University's strategic vision.

### DAWOOD, A'dnan

No candidate profile provided

### NORVIEWU-MORTTY, Erasmus

I was an insightful and gentle advocate for students during my studies for my Bachelor and M.A. degrees in *Université de Montréal* in Canada (1992-1995). I represented my faculty on the *Conseil Académique des Etudes Supérieures (Academic Council for Postgraduate Studies)* where I contributed ideas on establishing structures that promote higher success rates for Postgraduate students. Further, I was for one and half years, the Editor of the students' *bulletin* of *Université de Montréal's* Faculty of Theology and Religious Studies. Through the medium of this bulletin, I helped to promote constructive rapport among students and staff. As President of International Students Council (ISC) of Edith Cowan University, I have succeeded in convincing my fellow executive members to focus more on personal concerns of international students rather than on socials. I am a gentle and open minded person of creative initiatives and has experience in working with young and mature persons. »

### QUIGLEY, Jack

No candidate profile provided

### FRANCE, Kathryn

I am a full-time Phd student with the Centre for Applied Social Marketing Research, Faculty of Business and Law

I am proud to be an ECU student and it would be my privilege to serve on the University Council.

I believe in a university which: supports students to live a life that they love and one which makes a difference to others: provides an outstanding and rich learning environment: nurtures academic inquiry and promotes innovative thought: engages in evidence-based conversations at a national and global level: welcomes diversity and is based on values of respect and integrity.

As a member of the University Council this is what I would be committed to.

Please support me with your vote
