

**ELECTION - 10 OCTOBER 2007
ENROLLED STUDENT REPRESENTATIVES ON ECU COUNCIL (2)**

NYAGA, Ann K

I was born on the 10th August, 1988 in Kiambu, Kenya. I am the fourth of five children. I completed primary school education in Kenya and high school education in Perth at Churchlands Senior High School. After completing a Certificate IV in Health Science (2006) at TAFE, I joined Edith Cowan University where I am currently pursuing a Bachelor of Nursing. After completion of the nursing program, I hope to continue on to study Medicine, as this is my ultimate goal.

At Edith Cowan University, I am an active member of the African Student Association as well as, the International Student Council through which I am assisting in organising the 2007 Multicultural Week and ECU Cup of Nations. In life, I aim to not only do better and aim high, but to do best and aim highest. I owe my inspiration to my mothers' perseverance, determination and focus.

MOIR, Natalie R

ECU, and therefore Council, could always do with fresh perspective. I believe that fresh perspective needs to work in balance with the representation that has dedicated much of itself to the standing this University has attained. I offer the energetic, sincere but straightforward approach that I know is required for ECU to progress and evolve in a purposeful and dynamic way.

As a recent student to ECU, I feel that during my time here I have embedded myself into the student community in a way that has brought me genuine knowledge of the realities of being a student at ECU. In conjunction with outside experience and my chosen field of study, I know that practical application can work hand in hand with foresight and imagination. I believe this is what achieves the "what's possible", an objective all students should expect from Council, who is holds their interests as priority.

CUCOW, Shane

I have been an ECU student for 3 years now, and over that time have become concerned with the conduct of student affairs and rights at ECU. I started out as the Queer Officer for the Guild, and since have taken on the role of Chair Equity & Diversity in my campaign to further the rights and representation of the student stakeholders in the University.

I am heavily involved in student politics and rights representation, and I'm a strong believer that Universities should recognize that students are the most vital resource Universities have. The students who study here, work here, and live here, need to be involved in the decision making process to ensure that the University meets their needs, provides quality education, and encourages diverse student cultures. To that end I would love the opportunity to act as this student liaison to the University Council.

KOH, Jerry

I am presently a 3rd year law student with a BSc in IT from ECU and I am seeking re-election to Council. Having already gained much experience in the workings of governance services and understanding the key role it plays with regard to the direction ECU should take, I strongly believe my duties are just beginning. I am passionate about ECU and my priorities are for the welfare of students. Students' needs and satisfaction are paramount to my agenda, and I believe that addressing these issues would be a great advantage for ECU. All too often, students' issues are not given due notice and it is with this in mind that I wish to continue as your student –elect member.

Regards, Jerry Koh.

TAN, Diana L Y

G'day !

Compassion, courage, determination, dynamism, harmony, integrity, synergy, team spirit – these are qualities which form part of my vision. Any task worth doing, is worth doing well.

If you share the same vision as I, then please help me to serve you through the ECU University Council !
