

Interprofessional learning through simulation

Impact of health care teams on patient outcomes: a case study

This resource was developed by Edith Cowan University, Office of the Pro-Vice-Chancellor (Health Advancement) (2012), supported by:

- Australian Government Office for Learning and Teaching, National Teaching Fellowship 2011-12, "Enhancing the uptake of learning through simulation in health";
- the Interprofessional Ambulatory Care Program, a clinical training initiative supported by funding from the Australian Government under the Increased Clinical Training Capacity (ICTC) Program; and
- the ECU Health Simulation Centre.
