March 2013 update

This group has been working collaboratively on research publications, research proposals, supervision of higher degree by research students and the delivery of research training schools for early career researchers. The achievements to date include:

• 1 Post-doctoral Fellow and 4 Higher Degree Research Students appointed
• 7 Higher Degree Research Staff/Student exchanges with partnering universities
• Ongoing meetings/workshops with CRN partners to develop research streams
• 9 Research Grant applications submitted and 3 Research Grants funded
• 5 journal articles and 4 book chapters submitted/published

4 Visiting Fellows to ECU have conducted 5 Training Schools on a range of research methodologies benefiting both CHPRC and other ECU students/staff and partner universities students/staff. The latest, a 5-day Masterclass on Planning and Evaluating Questionnaires was conducted by visiting Fellow Dr Kyrre Breivik, from the Centre for Child and Adolescent Health, Norway and collaborating CRN researcher Professor Steve Zubrick. The Masterclass in March was attended by 22 researchers from ECU and CRN partner universities.
