

Instructions for configuring Proxy settings on a iPhone/iTouch

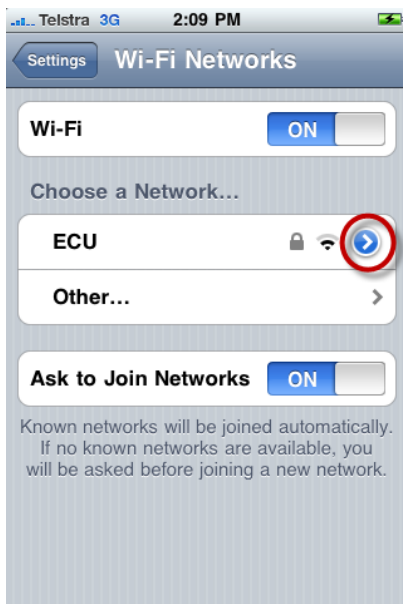

1. → From the main menu screen select '**Settings**':

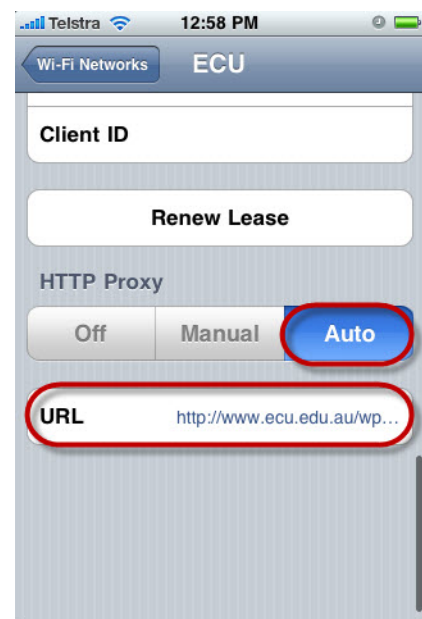

2. → Select '**General**':

3. → Select the blue arrow next to **ECU**

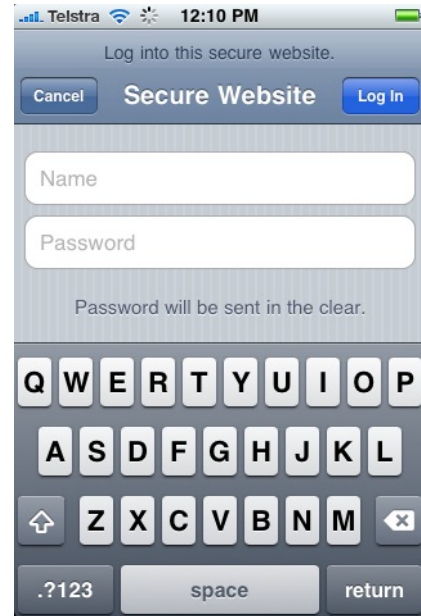

4. a. → Scroll down to **HTTP Proxy**
b. → Select **Auto**
c. → Select URL and enter:
<http://www.ecu.edu.au/wpad.dat>

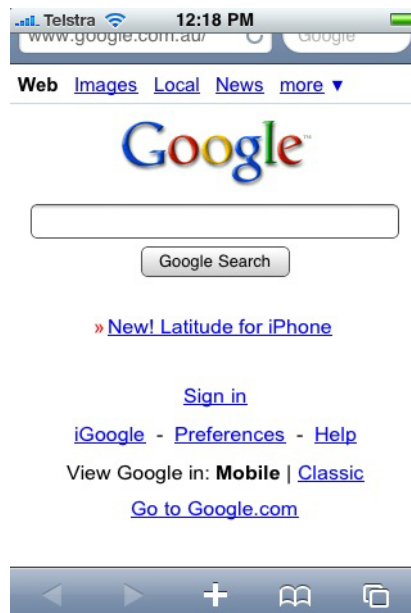

5. a. → Return to the home screen
b. → Click **Safari**

6. a. → Enter your Username & Password
b. → Click **Log In**

7. You will now be connected to the ECU wireless network and will be able to access websites outside the ECU domain.
