

Instructions for connecting to the ECU wireless network on an iPad

1. → From the main menu screen select 'Settings':

2. → Select "Wi-Fi" from the settings pane.

3. → Slide 'Wi-Fi' to ON:

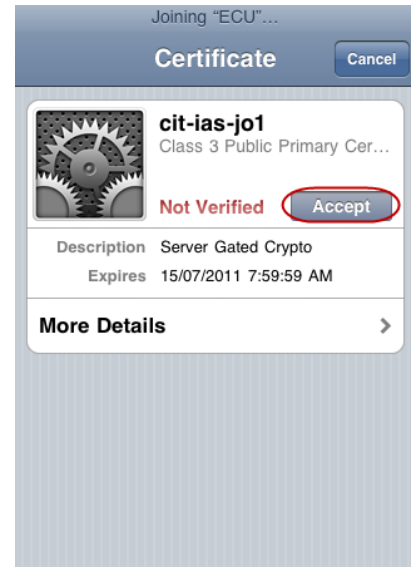

4. → Select 'ECU'

5. a. → Enter your ADS Login and password in the appropriate fields.
b. → Click 'Join'

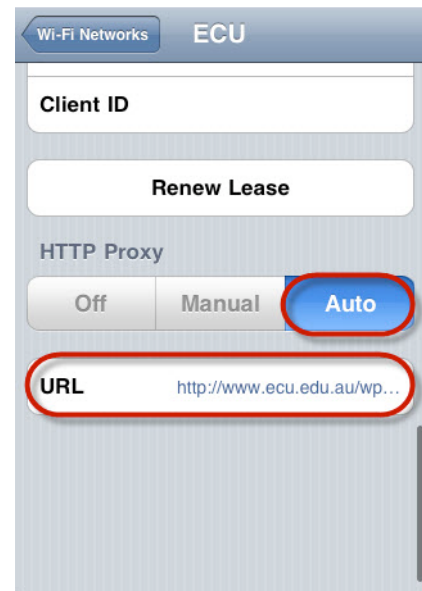

6. → Click 'Accept'

7. → Select the blue arrow next to ECU

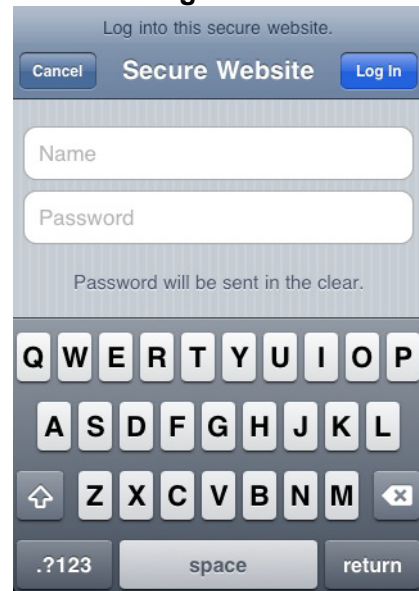

8. a. → Scroll down to HTTP Proxy
b. → Select Auto
c. → Select URL and enter:
<http://www.ecu.edu.au/wpad.dat>

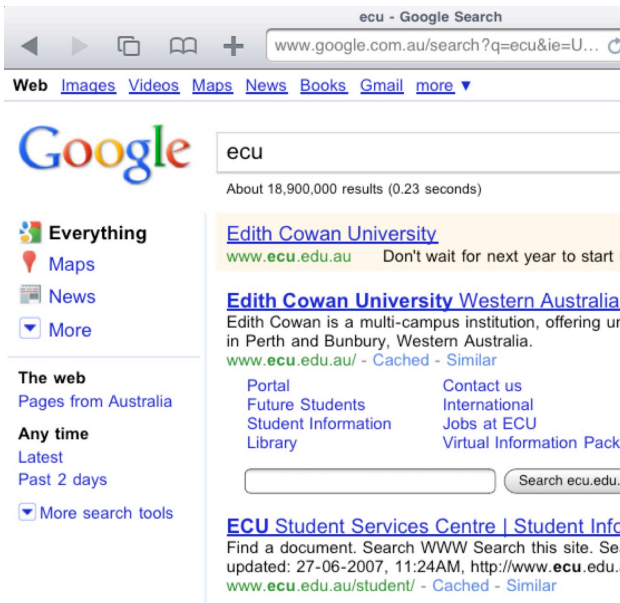

9. a. → Return to the home screen
b. → Click **Safari**

10. a. → Enter your ECU Username & Password
b. → Click **Log In**

11. You will now be connected to the ECU wireless network and will be able to access websites outside the ECU domain.
Click Reload page if you have already tried to access a webpage prior to entering the ECU Wireless settings.

12. The 'Wi-Fi'  icon will appear at the top left of the screen to indicate that you have successfully connected to the wireless network.
