

How do you get around?

A travel survey found that 58% of trips to ECU Joondalup were by car and most were by the driver alone. There are travel alternatives available in your local area, and many good reasons to use them. By walking, cycling or using public transport you can reduce car trips and so:

- reduce local traffic
- reduce air pollution and greenhouse gas emissions
- improve your health through physical activity
- reduce your travel costs

Wherever you are going, consider your options - that is what being TravelSmart is all about.

Public Transport

Public transport is a quick and convenient option for many trips; in fact 35% of trips made by ECU Joondalup students to and from ECU Joondalup are by public transport. Instead of being stuck in traffic, try the bus or train. You can sit back and relax, save on car running and parking costs and avoid the hassles of driving. Using public transport provides valuable opportunities to focus on study demands such as reviewing lecture notes, preparing for lectures and tutorials or reading texts and articles.

Smarterider Information:

Tertiary SmartRider is now available for all full-time students. Your tertiary SmartRider is your student ID for Transperth and Transwa concessions, and now you can add value to it and use it to pay for your Transperth fares. SmartRider saves you 15% to 25% off cash fares every time you use public transport. You will be issued your combined Tertiary SmartRider and student identification through ECU administration.

SmartRider, Transperth's new electronic ticketing system replaces MultiRiders. Value is stored on your SmartRider, your journey details are recorded (when you tag on and tag off all your journey buses, trains and ferries) and the appropriate fare is deducted from the stored value on your SmartRider. You can add value to your SmartRider via; Autoload (direct debit), BPay, selected SmartRider Retail Outlets and Transperth InfoCentres, Add-value Machines and on board buses and ferries. Cash tickets will continue to be available and MultiRiders can be used until they are phased out.

Transperth timetables and brochures are available at all Transperth InfoCentres, Council offices and libraries. To find out more about Transperth services, including the new SmartRider ticketing system, visit the Transperth website at

www.transperth.wa.gov.au or call the Transperth InfoLine on 13 62 13.

Transperth Train Information

| To/from Joondalup | Time | Frequency |
|-------------------------|-------------------|-----------|
| Weekdays - Peak periods | - Off peak | 8 mins |
| | - Evenings | 15 mins |
| | - Morning/evening | 30 mins |
| Weekends - Day time | - Morning/evening | 15 mins |
| | - Morning/evening | 30 mins |

Walk or Cycle

There are many short trips where travelling on foot or bicycle is a good alternative to driving. A recent travel survey found that almost half of the car trips made by local residents are 5 km or less, 30% are 3 km or less and some are over just a few hundred metres.

This shows walking or cycling is possible for many trips - such as going to the local shop, and it is a way of fitting healthy physical activity into your everyday life. Many roads offer a safe and convenient route and the network of paths is growing.

Walking hints:

- Two walking trips a day will go a long way to Find 30 minutes of exercise.
- Be courteous to cyclists on shared paths by keeping left.

Cycling hints:

- Find a convenient route. Use this map or one of the Perth Bike Map Series (more comprehensive cycling maps) that can be purchased from bike shops.
- Wear a helmet and bright clothing.
- At night, use front and rear lights.
- Be courteous to walkers who use shared paths.

- Talk to regular cyclists for advice on local cycling conditions.

Taking bikes on trains:

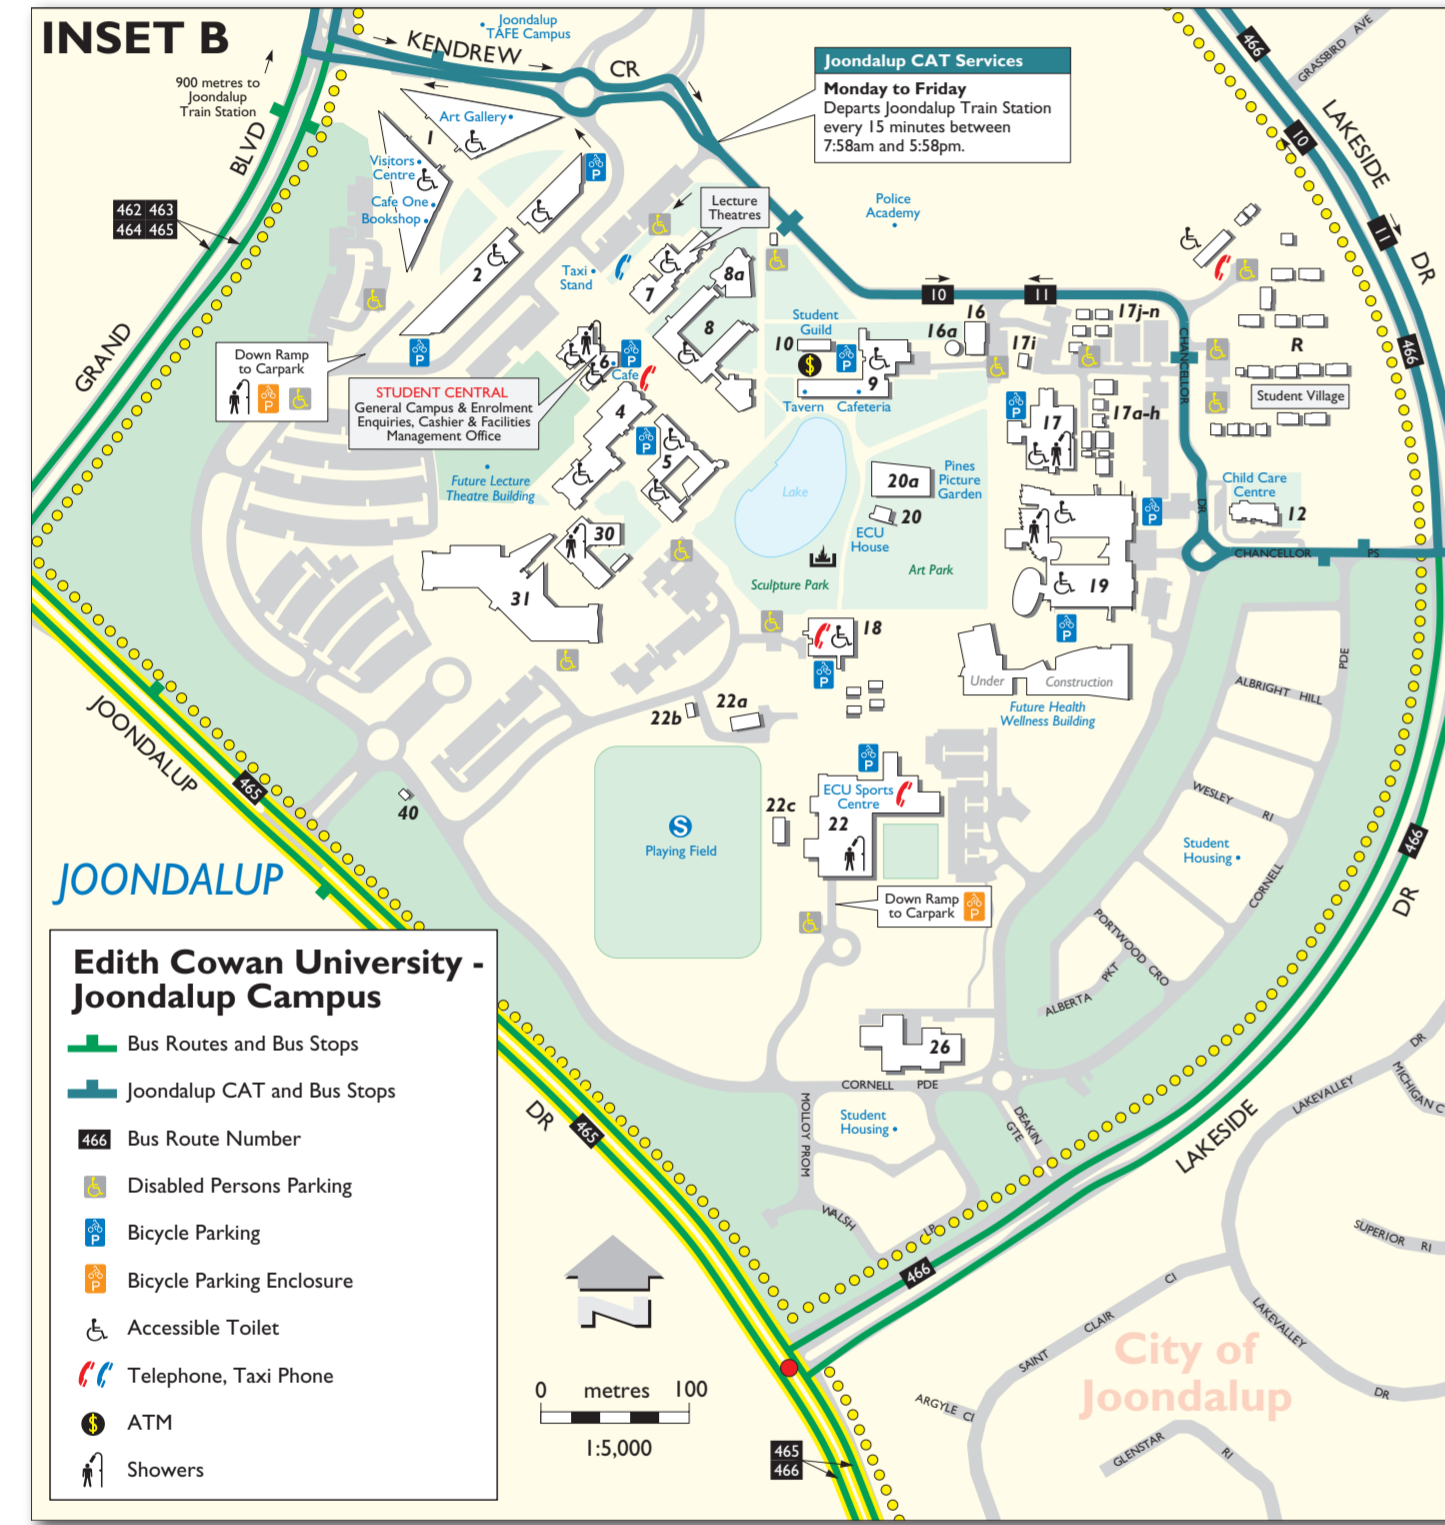

- Bikes can go on all trains during off peak times, weekends and public holidays.
- During weekday peak times, you can take your bike on trains going away from Perth City (7:00-9:00am) or towards the City (4:30-6:30pm), and bikes are not permitted on trains stopping at or passing through Perth Train Station at these times.
- Free bike lockers and u-rails are installed at all train stations.

ECU Carpool

ECUCarpool is a free service for ECU staff and students to use to help find you a carpooling partner. Save time, money and reduce your transport emissions by sharing a ride to or from Uni. To register and for more information, go to: <http://carpool.ecu.edu.au>
