Information

The following guide will assist you with connecting to ECU wireless using a Windows Phone, Apple iPhone or Apple iPad.

Prerequisite

- You will need to know your login ID and password to be able to connect.

Instructions

- **Windows Phone**
- **Apple iPhone**
- **Apple iPad**
Windows Phone

1. Slide your finger to the left on the screen to access the Windows Phone menu.

2. Scroll down, and then select **Settings**.
3. Scroll down, and then select WiFi.

4. Ensure WiFi network is turned on. Select ECU to connect to it.

5. Enter your username and password, and then select done.

Note: Select Show password if you would like to see your password as you type.
6. Select **Yes**, to confirm that you would like to connect to ECU wireless.

7. You will be returned to the WiFi Settings screen and the status **connected** will appear below ECU wireless.
Apple iPhone

1. Select **Settings**.

2. Select **Wi-Fi**.
3. **Select ECU.**

4. **Enter ADS Username and Password.**
5. Select **Accept** to verify certificate.

6. A tick will appear next to **ECU wireless**, when the connection has been established.
Apple iPad

1. Select **Settings** from the main screen.
2. Select **Wi-Fi** from the left hand menu.
