Underland|2023

Stephanie REISCH | William LEGGETT | Bernard TAYLOR | Clarice YUEN | Jared MALTON

Underland looks beyond the earth's visible surfaces to celebrate the dark, primal and sublime aspects of the natural world that exist on the periphery of human perception. Driven by a desire to understand the current ecological crisis facing the planet, the exhibition features West Australian artists: Stephanie Reisch, Bernard Taylor, Jared Malton, William Leggett, and Clarice Yuen and proposes an upending of the table that sees nature positioned as supreme.

Spectrum Project Space

Curated by **Stephanie REISCH**
