ECU Melbourne and ECU Sydney

Join Australia's top public university for student experience.

VICTORIAN
INSTITUTE OF
TECHNOLOGY
www.vit.edu.au

ECU Melbourne and ECU Sydney locations are operated in partnership with VIT (Victorian Institute of Technology).

Welcome to ECU Melbourne and ECU Sydney

As Vice-Chancellor of Edith Cowan University, I am proud to partner with VIT (Victorian Institute of Technology) to deliver courses in Melbourne and Sydney.

Our co-location partner, VIT, is supplying the physical infrastructure and key services to students. VIT will also continue delivering their Vocational Education and Training and Higher Education courses from these same locations.

Under this partnership, international students will study courses from ECU's School of Business and Law and School of Science.

Students in Melbourne and Sydney can expect the same high quality content, delivery method and assessments as their fellow ECU students in Western Australia (WA) and international locations enjoy.

We are a university that puts students at the centre of everything we do. It's an approach that has been rewarded with a five-star rating for teaching quality for a record 12 years in a row in the Good Universities Guide.

Students in Melbourne and Sydney now have the opportunity to experience this same five-star teaching with qualified staff in a technology-enhanced environment.

Professor Steve Chapman CBE
Vice-Chancellor
Edith Cowan University

Why choose ECU?

ECU Melbourne and ECU Sydney are located in the heart of each Central Business District (CBD) where you'll enjoy small class sizes, qualified staff and personal attention. In the heart of the two largest cities in Australia, ECU's approach is personal, supportive and has the student at the centre.

1. Exciting Locations

These locations have classrooms, a library, study spaces and non-academic services delivered from office buildings. Other amenities such as cafés, taverns, a variety of libraries and medical services are provided by the city itself. Locations are easy to access via public transport.

2. Learn from those who know

Our teaching staff have extensive experience as researchers, teachers, advisers or consultants and have professional experience in their field.

3. Internationally Recognised

ECU degrees are internationally recognised and a considerable number of courses are professionally accredited by a variety of national and international organisations.

4. Industry Links

Our courses offer links with industry and organisations, which means you'll get hands-on experience while you're studying. For example, a number of our courses offer the opportunity to work on industry projects, action learning activities and simulated work environments based on cases developed direct with industry. This means that you gain the theoretical knowledge that professionals need, with the hands-on practical skills employers are seeking.

Students in Melbourne and Sydney actively engage with the Australian Institute of Project Management (AIPM) and the Australian Computer Society (ACS), depending on their course.

Rankings

Most Satisfied Students

We were ranked the top public university in Australia for student experience in the 2017 and 2018 QILT (Quality Indicators for Learning and Teaching) survey. Results showed 86.1% were satisfied with their educational experience at ECU.

Five-Star Teaching Quality

ECU graduates have given us a 5-star rating for teaching quality for the twelfth year in a row (2008 to 2019) in the 2019 Good Universities Guide. No other public university in Western Australia – and very few across Australia – have achieved such a consistently high endorsement for teaching quality.

Times Higher Education

ECU has again been named in the *Times Higher Education* (THE) World University Rankings in 2019. It is an annual list of the top 1000 universities for teaching, research, knowledge transfer and international outlook.

ECU Melbourne & ECU Sydney

ECU Melbourne and ECU Sydney offer a big city campus, with individualised student support.

ECU's Melbourne and Sydney locations are located in the CBD of each city. These cities are vibrant centres of commerce and industry. Adjacent to the locations are cafés, public transport, recreation centres, industry centres and employers. These cities are your learning space. That being said, each student gets a personalised experience with a class limit of 25 students, individualised student support through our ECU Excellence Ambassador program and monthly social and career activities, including trips to the Sydney Opera House and Melbourne Aquarium. We also link in strongly with industry bodies and events so you can start meeting future employers from your first semester in the course.

Students studying on campus at ECU Melbourne and ECU Sydney will have a limited range of choices regarding the units they can select in a given semester. They cannot enrol in off campus, online, or cross institutional enrolments without permission from the University. Attendance to each class in these locations is expected and monitored by the University.

Scholarships

We have scholarships for students who can demonstrate academic merit. Students should contact their agency or the University directly regarding scholarships before they apply. Scholarships for ECU Melbourne and ECU Sydney students are specific to those locations. Students who seek to transfer locations may lose their scholarship. Students who do not attend classes regularly or do not successfully complete all of their units may also lose their scholarship.

Pathways

Entry requirements

No specific subject prerequisites, Weighted Average Marks or Grade Point Averages are required for admission.

If you're applying for Project Management and Cyber Security courses we don't require you to have existing qualifications in either field.

Packages with English

If you do not meet ECU's English requirement, you may be packaged with English at one of ECU's approved providers in the same city where you would like to complete your course.

Commencements

All courses offered at ECU Melbourne and ECU Sydney have a February and a July intake.

Application

Visit **ecu.edu.au/apply** to apply for admission.

Our courses

Our Master of Business Administration International has unique specialisations geared toward employment

Project Management and Cyber Security Studies, both of which are offered in Melbourne and Sydney, are growing areas of interest for students and employers.

Cyber Security Leader

ECU was named as one of just two Academic Centres of Cyber Security Excellence in Australia and will share in $1.9 million Federal Government funding that will be used to train thousands of cyber security professionals.

ECU, along with the Western Australian State Government, is also a lead partner in a $50 million Cyber Security Cooperative Research Centre (CRC), which is expected to position Western Australia as the nation's new centre for cyber research and capacity building.

ECU's project management program provides knowledge to manage projects in almost any industry

Unlike other Project Management courses, our generalist program, endorsed by the Australian Institute of Project Management (AIPM), provides a pathway into project management through the development of core skills in areas such as scheduling, project costing, risk management, project leadership and procurement, all of which can be applied to any discipline from Business Management to IT and from Event Management to Engineering applications.

Courses available to study

Master of Business Administration International

Duration: 2 Years

Intake: February & July

Semester Fees: $13,475

CRICOS Code: 079116

See more course information:
ecu.edu.au/courses/L94

This course develops highly skilled global managers and leaders in an international business context, who can contribute to organisations in an effective and responsible manner. In today's globally competitive environment, it is essential to build organisational capability by creating a climate and culture conducive to innovation and advancement. The course provides students with the ability to respond to challenging situations in complex and modern organisations. It also builds and further develops problem-solving skills, and effective interpersonal and relationship management skills.

Specialisations are available in the following disciplines:

* Cyber Security Studies * Project Management

Employment Opportunities

The course prepares graduates for employment and career progression across various disciplines, including, but not limited to, entrepreneurship and innovation, environmental management, finance, healthcare, human resources, information systems, international business, occupational health and safety, marketing, project management, and supply chain and logistics management.

Careers

Manager, Managing Director, Chief Information Officer, Analyst, Environmental Manager, Finance and Banking Manager, Government, Healthcare Manager, Human Resources Manager.

Specialisations:

Cyber Security Studies

This specialisation is among the first of its kind in Australia, bridging this gap and preparing business professionals to tackle industry's cyber security challenges. Offered by a university which is recognised as a Cyber Security Centre of Excellence, graduates will be employable by businesses from various industries which are looking for sustainable growth while minimising their digital risk and enhancing their technological readiness.

This specialisation develops student knowledge and provides graduates with exposure to contemporary cyber security issues and effective mitigation strategies, thereby preparing graduates for best practices when working within a business orientated environment.

Project Management

Project Management is becoming a core activity in all organisations and is increasingly responsible for delivery of the corporate strategy. Project Management is a skill which can be applied in almost any industry across a range of projects including: developing a new product or service; effecting a change in structure, staffing, or style of an organisation; designing a new product; developing or acquiring a new or modified information system; constructing a building or facility; running a campaign for political office; or implementing a new business procedure or process.

Master of Cyber Security

Duration: 2 Years

Intake: February & July

Semester Fees: $16,075

CRICOS Code: 083335A

See more course information:
ecu.edu.au/courses/L33

This Masters by Coursework degree is designed to meet the demand for cyber security professionals within government, law enforcement and industry. The course engages with, and provides a pathway for, information technology professionals seeking to commence or further progress their careers in the cyber security domain. It is also relevant to those seeking to enter the IT profession who have no previous experience in the cyber discipline.

Employment Opportunities

This course prepares students for careers in the field of cyber security, including areas such as network security, computer forensics, network forensics, security assessment, information warfare and cyber security management. Graduates of the program will be qualified to work as cyber security professionals including roles as designers, architects, analysts or security system engineers.

Careers

Cyber Security Analyst, Cyber Security Officer, Technical IT Security Officer, Network Security Engineer, Digital Forensic Practitioner (Acquisition and Analysis), Information Security Auditor, Information Security Analyst, Security Consultant, Software Auditor.

Professional Recognition

Australian Computer Society (ACS) has accredited this course.

Master of Project Management

Duration: 2 Years

Intake: February & July

Semester Fees: $13,475

CRICOS Code: 079106D

See more course information:
ecu.edu.au/courses/L99

Project Management is becoming a core activity in all organisations and increasingly vital to delivery of the corporate strategy. ECU's Master of Project Management is offered within the School of Business and Law, so the course has a strong business focus.

It is designed to equip students with the knowledge and skills of project management principles and practice to design, implement and lead a diverse range of projects in almost any industry.

The Master of Project Management aims to enable students to critically apply theory and principles to practice by examining real world project management cases and examples in a collaborative environment facilitated by academics and industry practitioners. Students are provided with the opportunity to research contemporary project management issues and approaches in order to solve complex problems and be able to contribute to the advancement of the profession and to the wider community.

Employment Opportunities

The course provides students with the knowledge to manage projects in almost any industry. It provides a pathway into project management through the development of core skills in areas such as scheduling, project costing, risk management, project leadership and procurement. Current project managers can develop new contacts and extend their knowledge by learning and applying new theories and methods, thus enabling them to move ahead in their careers.

Careers

Project Team Member, Project Officer, Project Manager, Project Scheduler, Project Administrator, Project Support Officer, Program Manager.

Professional Recognition

Australian Institute of Project Management (AIPM) have endorsed this course.

Our changing world needs a university to change with it.

A university where courses composed with industry deliver the most relevant knowledge and skills.

So be the graduate the changing world needs.

Study at ECU Melbourne or ECU Sydney.

ECU is committed to reconciliation and recognises and respects the significance of Aboriginal and Torres Strait Islander peoples' communities, cultures and histories. ECU acknowledges and respects the Aboriginal and Torres Strait Islander peoples, as the traditional custodians of the land. ECU acknowledges and respects its continuing association with the traditional custodians of the land upon which its campuses stand.

GREENING ECU: Edith Cowan University is committed to reducing the environmental impact associated with its operations by conducting its activities in a socially and environmentally responsible manner. This includes implementing strategies and technologies that minimise waste of resources and demonstrate environmentally sensitive development, innovation and continuous improvement.
