**PLEASE TURN OVER PAGE FOR ADDITIONAL REQUIREMENTS**

## SCREENING

### MRSA Screening (nose & throat swabs)

If you have been a patient or worked in a health care facility (including an older adult health care facility) outside of WA in the last 12 months you will need MRSA screening.

MRSA screening swabs can be collected outside of WA, as long as the individual has not worked since collection of the screening swabs.

Following any hospitalisation, clinical experience or employment in a health care facility outside of WA during your course

Student Vaccination Record (SVR) completed by health care provider uploaded to SONIA

### Tuberculosis Screening

Evidence of QuantiFERON or Mantoux

On commencement of the course & following any travel to countries identified as high burden TB countries by WHO  
<https://www.who.int/tb/data/en/>

***\*individual vaccination records/serologies will not be accepted***

Students are requested to submit all clinical placement requirements to SONIA by the due date specified on the Clinical Placement and Clinical Practice Unit Canvas site. Clearances should be valid for the entire semester period (PR7 or PR8)

Please include your course code 'I80' in the name of each and every document upload to SONIA

Do not upload documents in HEIC format as they are unable to be opened in SONIA and will not be processed

Refer to the Clinical Placements Canvas site for specific instructions on obtaining each of these requirements

All queries relating to clinical placement requirements should be submitted using the following link after thoroughly reviewing the Clinical Placement requirements module: [Prac Enquiry Form](#)
