

ATP4440 TEACHING SCHEDULE – SEMESTER 1, 2024

The allocation of teaching time for Assistant Teachers is carefully devised to allow a gradual increase in the responsibility for the teaching program. This is to ensure there are adequate opportunities for Assistant Teachers to observe Mentor Teachers modelling best teaching practice. Where appropriate, variations from this schedule may be negotiated with the Assistant Teacher and the University Supervisor. When Assistant Teachers are not engaged in teaching lessons, they should support the work in the classroom under the direction of the Mentor Teachers. In weeks 1-4 the Assistant Teacher will need the support of the Mentor Teacher's planning documents as a basis for some of their teaching. As the Assistant Teacher assumes a greater proportion of the teaching load, their own Forward Planning documents will become the basis of the teaching program. The Assistant Teacher should begin teaching from the 8-week learning area program prepared prior to the commencement of the ATP. Assistant Teachers are not required to write individual learning experience plans. Daily Work Pads should include a high level of detail and provide all planning information, resources and curriculum links.
