In our creative lives we set ourselves adrift with the pure hope that our message will be found on some distant shore. If we're lucky, that message is found by just the right kindred soul. **Message in a Bottle** is the third exhibition as part of the annual Perth Comic Arts Festival (PCAF), showcasing four collaborating artist duos from Perth, who were lucky enough to find their kindred soul. Their works explore comics narratives, small sculptural vessels, and poetry. This exhibition features the strong but delicate connections that bond and bind us together.
