Forget an ECU Wi-Fi Network

The following guide will help you forget an ECU Wi-Fi network on your device.

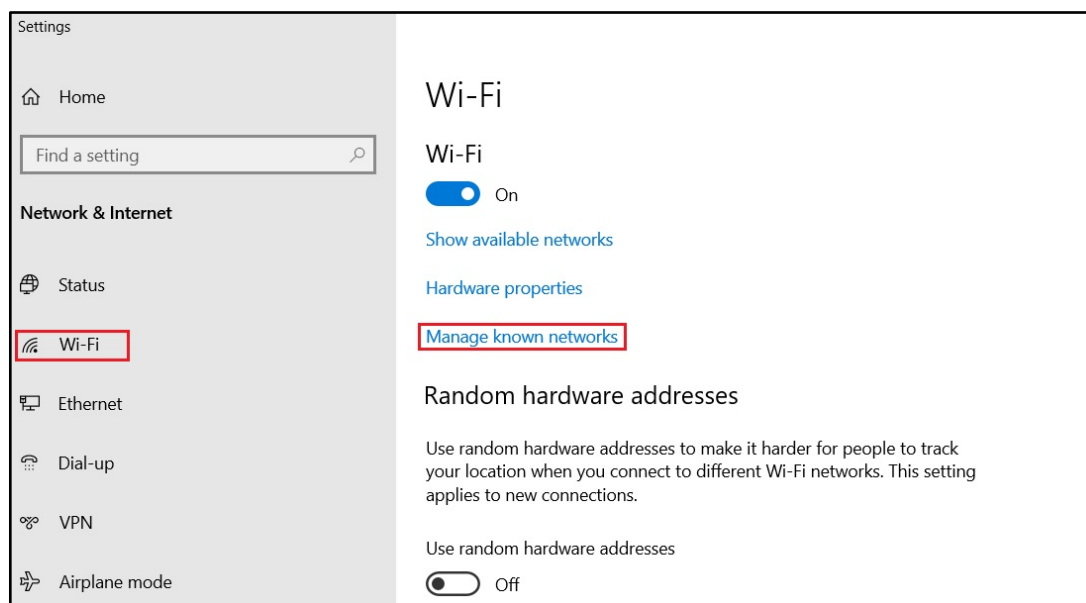

Need further assistance? Please contact the [IT Service Desk](#) on +61 8 6304 6000 or itservicedesk@ecu.edu.au

Forget a Wi-Fi Network on Windows 10

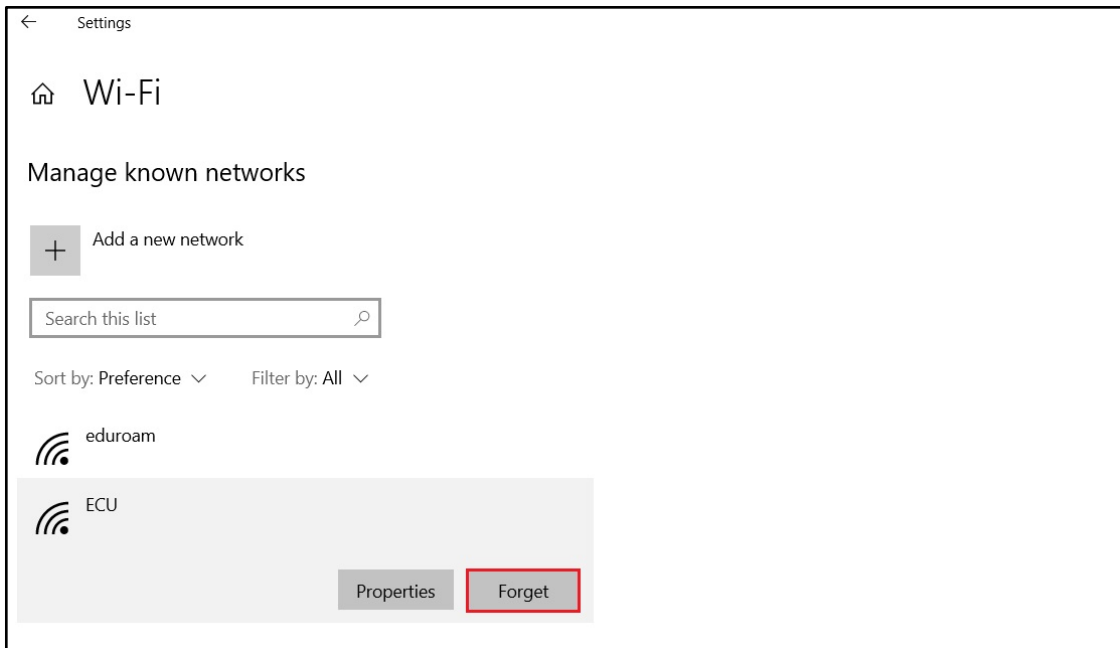

1. Click the **Network** icon on the lower right corner of your screen and click **Network & Internet Settings**.

2. Click on **Wi-fi** and then click on **Manage known networks**.

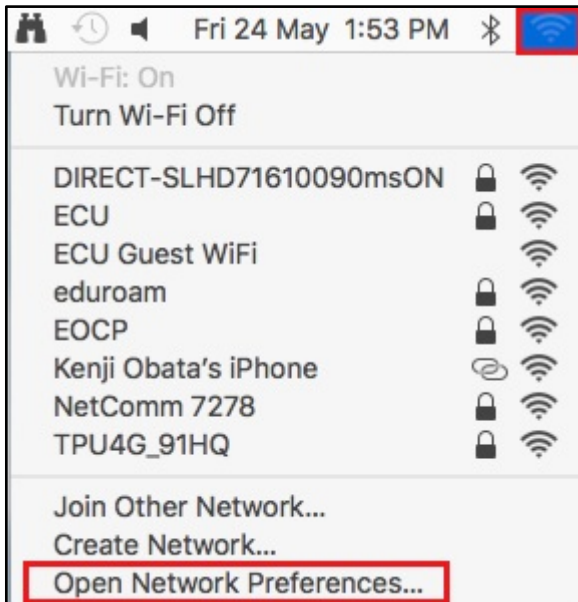

3. From the **Manage known networks** screen, select the network you want to delete and click **Forget**.

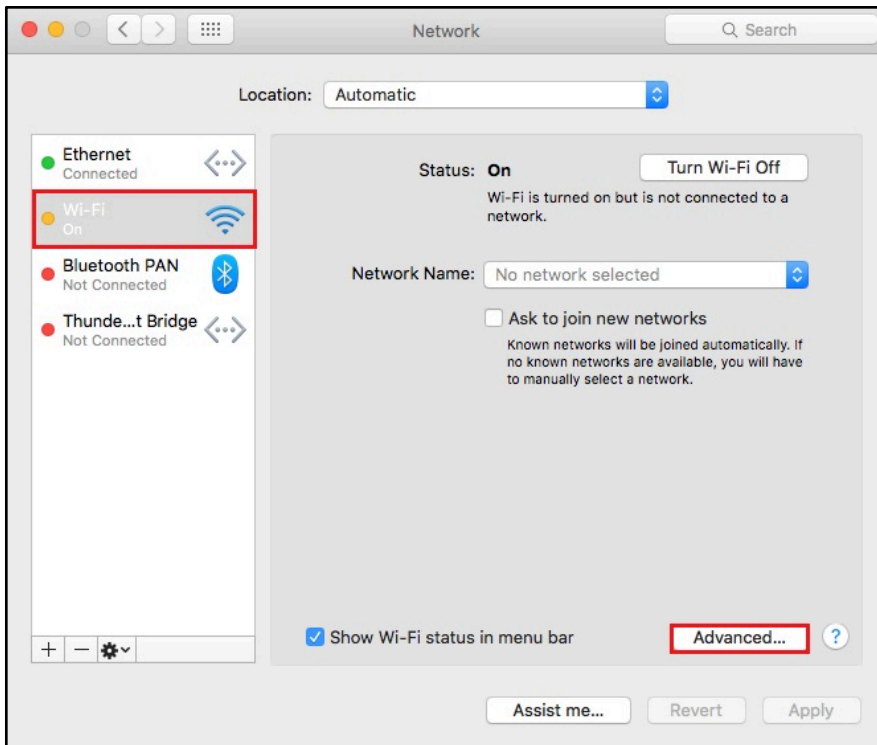

4. The wireless network profile should be deleted.

Forget a Wi-Fi Network in Mac OS X

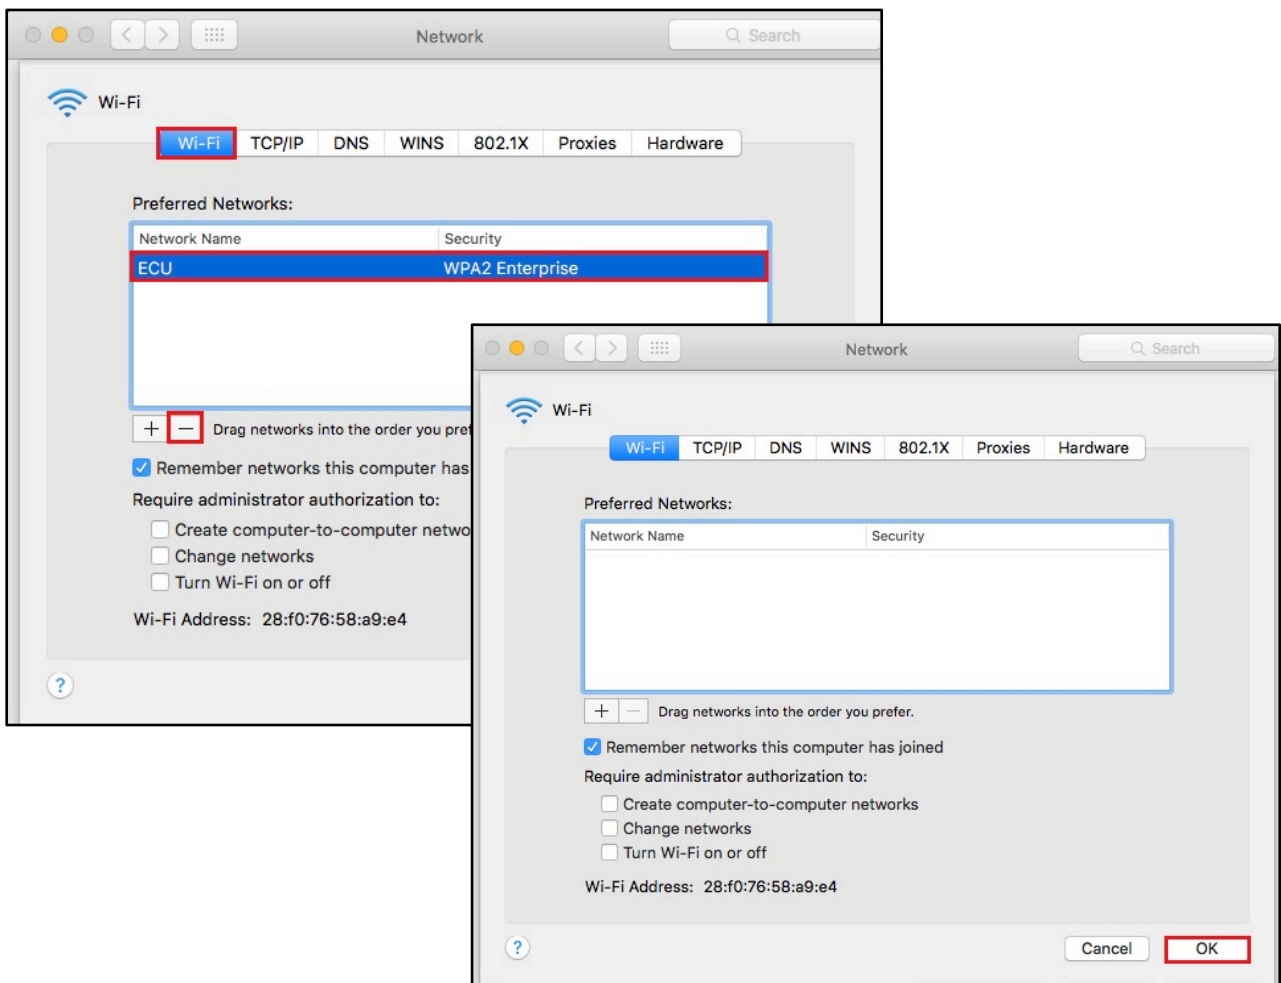

1. Select the **Wi-Fi** symbol along the top menu bar and click on **Open Network Preferences** at the bottom of the drop down menu.

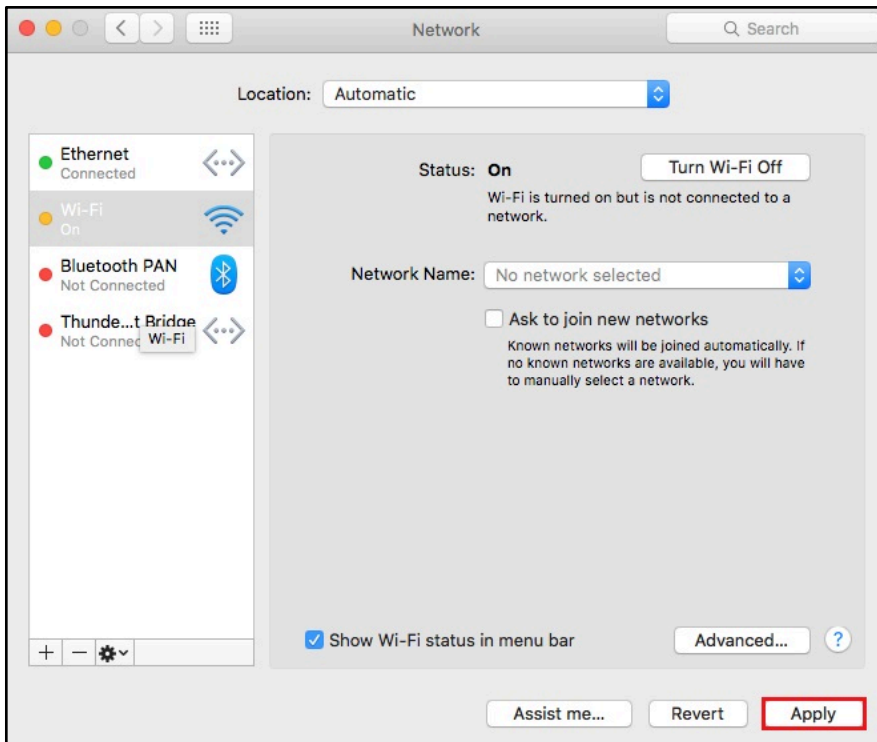

2. Click on **Wi-Fi** in the menu on the left and click **Advanced...**

3. Select the network you want to delete and click the **minus sign**. This should remove the network from the list, then Click **OK**.

4. You will be taken back to the Network screen, click **Apply** to save the changes.

Forget a Wi-Fi network on your iPhone and iPad

1. Launch the **Settings** app from the home screen.

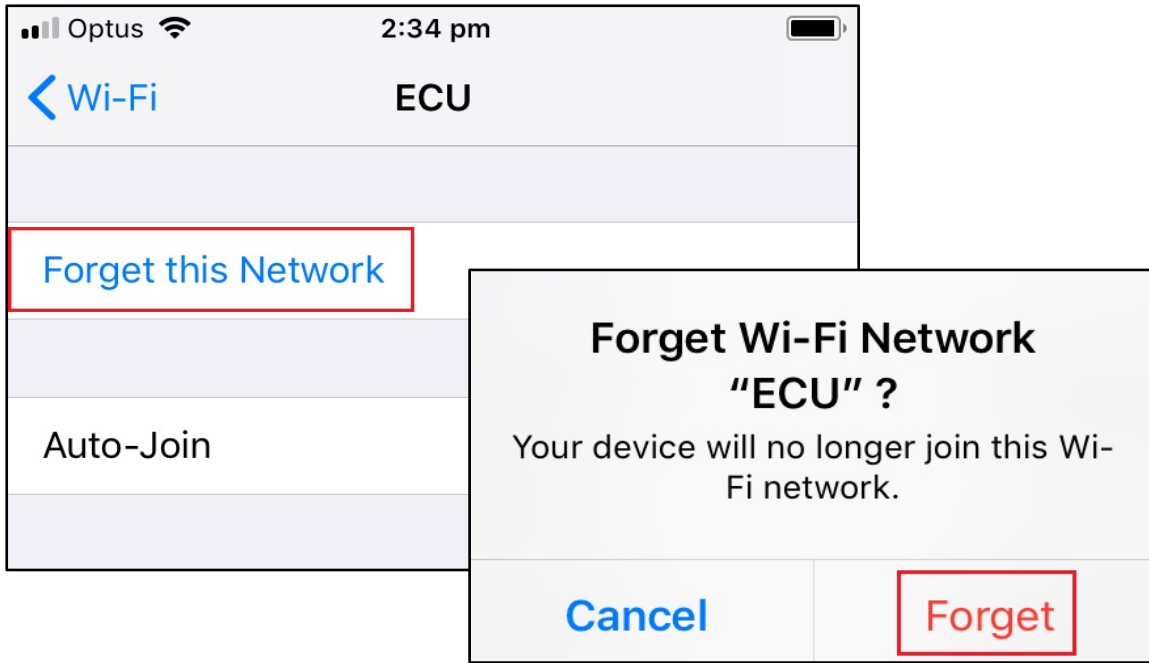

2. Tap **Wi-Fi** from the settings list

3. Tap the info button next to the **Wi-Fi** network you want to forget.

4. Tap **Forget This Network** and Tap **Forget** when prompted to confirm you want to forget the network.

Forget a Wi-Fi network on android phone

1. Open your Android's **Settings** app.

2. Find the **Wireless & Networks** section. This section will be at the top of your Settings menu. Depending on your device model and current software, you might have to tap a **Connections** tab first at the top of your screen.

3. Tap Wi-Fi under Wireless & Networks.

4. You will see a list of all available Wi-Fi networks around you.

5. Tap and hold on the **network** you want to forget. Depending on your device and software, you might need to tap on the network instead of tapping and holding. Tap **Forget network**.
