

International Business Study Tour Cambodia | 7th July - 20th July 2024

Interested in this School of Business & Law Program?

Immerse yourself in a 2-week cultural experience, including participating in a community project, guided tours, cooking classes, sightseeing, and a village stay. You'll spend time in both the city and more rural environments including a community work project, providing a well-rounded appreciation of Cambodia.

This study tour provides students the opportunity to engage in an 'authentic cross-cultural experience' and connect with social enterprises, Non-Government Organisations (NGOs) and local businesses.

This will support students to develop the essential skills they need to succeed in the globally connected world of business, such as cultural awareness and cultural intelligence capabilities. Additionally, students will enhance their critical thinking skills through deep exploration of major challenges faced by local organisations and communities.

- . Attend workshops with organisations that empower young people.
- . Visit business and NGOs that provide education about immigration and human trafficking.

Postgraduate credit : MBA6055- a core option unit in the MBA (J52) course and can be an elective in the MBAI (L94) and other School of Business and Law Postgraduate degrees.
