

2027 SSCI Planetary Health Study Tour in Fiji

This program, hosted by Fiji National University (FNU), is for ECU School of Science students interested in the intersection of environmental and public health. Students will gain first-hand experience and insight into planetary health challenges and management in Fiji through a combination of seminars, field visits and community-based learning.

The program will engage with the Watershed Intervention for Systems Health initiative (WISH Pacific). Students will visit traditional villages to speak with communities experiencing environmental change and to assist in implementing and evaluating nature-based public health solutions.

Students will gain 15 credit points through ISS3101

This project is supported by the Australian Government's New Colombo Plan (NCP). To be eligible, you must be an Australian citizen and enrolled in an undergraduate course. There are 10 places available and students will receive \$4,000 to assist with program costs.
